Michelle Loudenclos

ENTRY-LEVEL SOFTWARE ENGINEER

Reno, NV | 775-233-0857 | michelle.sherrie@yahoo.com

SUMMARY

Entry-level software engineer seeking junior development opportunities, with General Assembly's Software Engineering Immersive Flex training and hands-on JavaScript project experience. Built a React trivia app using external APIs and routing, contributed to a collaborative full-stack recipe app with Node.js, Express, MongoDB, and EJS, and created a JavaScript game. Adds practical technical troubleshooting from manufacturing and operations work, including battery-pack defect diagnosis with multiple programs, workplace software support, employee training, and procedure documentation.

SOFTWARE DEVELOPMENT & TECHNICAL SKILLS

Development: JavaScript, React, Node.js, Express.js, HTML, CSS, REST APIs, MongoDB, Mongoose, PostgreSQL, JWT

Technical experience: Computer and software troubleshooting; defect diagnosis using software tools; user training; technical documentation and issue escalation

Workplace: Customer service, teamwork, prioritization, time management, recordkeeping, problem-solving

TECHNICAL PROJECTS

Trivia Trove (Nov 2023) | *React, JavaScript, React Router, APIs*

- Built a multi-page trivia app with category and difficulty choices, true/false and multiple-choice questions, scoring, answer feedback, missed-question review, and replay. Integrated Open Trivia DB and used React routing to manage question flow.

Recipe Sharing Web App (Oct 2023) | *Collaborative team project; Node.js, Express, MongoDB, EJS, JWT*

- Collaborated on a full-stack app with recipe CRUD, user registration and login, JWT-protected routes, and author-only editing; debugged an ownership issue by tracing form-submitted IDs and update handling.

Anaconda (Sep 2023) | *JavaScript*

- Created a JavaScript game inspired by Snake.

PROFESSIONAL EXPERIENCE

Tool Source Warehouse | Order Picker / Warehouse Associate — Reno, NV | Oct 2025 - Present

- Frequently asked to troubleshoot computer and software issues; resolve routine problems and route unresolved issues to IT.
- Pick orders as the primary duty; also pack orders and prepare outgoing shipments.
- Support daily shipping and receiving operations.

Sunset Limousine | Chauffeur / Driving Manager — Reno, NV | May 2020 - Oct 2025

- Troubleshot issues on the office computer and manager's work laptop.
- Learned the vehicle maintenance logging software, trained drivers to use it, answered questions, and helped resolve technical difficulties.
- Coordinated driver schedules, routes, and trip records to keep service organized and on time.
- Adjusted routes and schedules to resolve day-to-day operational issues.

Tesla | Production Associate / SME Lead — Sparks, NV | Mar 2018 - May 2020

- In the rework department, used multiple programs to diagnose physical and software defects in battery packs and determine the repairs needed.
- Led 10+ production associates while maintaining production flow, safety, quality, and daily output goals.

A Doggies Dream | Assistant Kennel Manager / Shift Lead — Reno, NV | Sep 2012 - Mar 2018

- Resolved issues with the front-desk computer.
- Wrote a handbook for new software and trained staff to use it.
- Scheduled and supervised 8+ attendants and coordinated shift coverage for daily operations.
- Tracked supplies and maintained a clean, safe facility under strict guidelines.
